Boulevard de la Liberté, Marseille, Provence-Alpes-Côte d'Azur, France
Poste visé : Full Stack Developer
Contenu du CV : Milouda is an experienced Full Stack Developer with expertise in both front-end and back-end technologies. She has a strong command of React.js, Angular, Node.js, and Spring Boot for developing dynamic web and mobile applications. She is passionate about microservice architecture, DevOps, and creating scalable and maintainable software solutions. Milouda is also highly skilled in integrating databases and building RESTful APIs. Her expertise includes: Strong proficiency in React.js and Angular for dynamic and responsive front-end development. Experienced with Spring Boot for backend development, implementing secure APIs and handling integrations with external systems. Skilled in Node.js for backend services and real-time applications. Knowledge of microservices architecture and tools like Kubernetes, Docker, and Apache Kafka. Proficient in MongoDB, PostgreSQL, and MySQL for database management and querying. Experience in building CI/CD pipelines using Jenkins and GitLab CI.

Experience: Full Stack Developer at InnovateTech Solutions (2019-Present): Developed and maintained scalable full-stack applications using React.js and Spring Boot. Implemented REST APIs for third-party integrations. Web Developer at WebPro Technologies (2016-2019): Worked on front-end development using Angular and React for customer-facing applications, and implemented Node.js for backend services.
